

Part Numbering

Nemco products are manufactured lead-free and RoHS compliant. The use of the "LF" suffix code is optional when customers choose to establish a unique part number. Packaging will be labeled lead-free, RoHS compliant whether or not the "LF" suffix code is used. Parts requiring 90% Sn/10% Pb (tin/lead) termination finish must reference the "PB" suffix code.

PCT Series

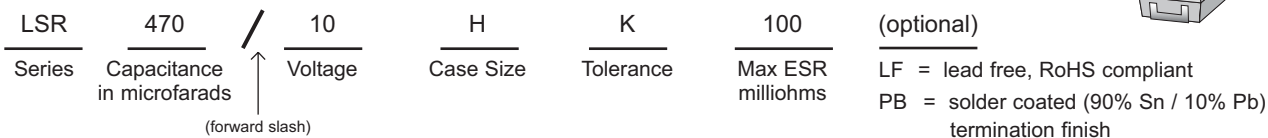

Example: PCT10/16CK

Standard packaging is tape and reel, 7" diameter reel. (For 13" dia. reel please contact the factory for ordering information)

LSR Series

Example: LSR470/10HK100

Standard packaging is tape and reel, 7" diameter reel. (For 13" dia. reel please contact the factory for ordering information)

MCT Series

Example: MCT1/16RM7500

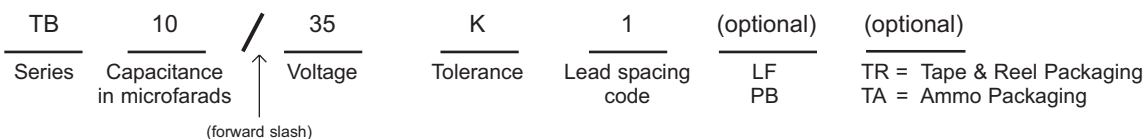

Only available in M tolerance.

Only available lead-free, RoHS compliant.

Standard packaging is tape and reel, 4" diameter reel. (For 7" dia. reel please contact the factory for ordering information)

TB Series

Example: TB10/35K1

Standard packaging is bulk.

Voltages

PCT / LSR	MCT	TB
4	2	6 (6.3)
6 (6.3)	3	10
10	4	16
16	5	20
20	6 (6.3)	25
25	10	35
35	16	50
50		

Case Sizes
